**CRA Citizen Advisory Committee
Regular Meeting Minutes
July 21, 2016
5:00 P.M.**

The July 21, 2016 CRA Citizen Advisory Committee meeting was held in the City Commission Chamber in the Municipal Administration Building at approximately 5:00 p.m. The meeting was called to order by Chairman Mark Bennett.

MEMBERS PRESENT: Narvell Peterson; Jean Kincaid Scott; Christopher Lutton; Mark Bennett, chair

MEMBERS ABSENT: None

CITY STAFF PRESENT: Clara VanBlargan, City Clerk; Kenneth Fields, City Manager; Dorothy Ecklund, Finance Director; Kathy Bangley, Planning & Development Director

Agenda Item 1. ROLL CALL

Agenda Item 2. Approval of Minutes: June 16, 2016

Narvell Peterson made a motion to approve the June 16, 2016 meeting minutes, Christopher Lutton seconded the motion, and the Committee unanimously approved.

Agenda Item 3. Planning Session with Staff on the Revision of the 1999 CRA Plan

Finance Director Dorothy Ecklund explained to the CRA Citizen Advisory Committee that they would have to wait to discuss Agenda Item 3 at the next meeting so they can talk with the City Manager because one of the budget items is \$40,000 for an outside professional to come in and look at the CRA plan to revise the plan. She would hate for two different horses to be working on this and there not be any communication between the two.

Chairman Mark Bennett said he understands that James Slaton could not attend the meeting because he is on vacation this week and Ms. Ecklund confirmed. City Clerk Clara VanBlargan said James Slaton and Sarah Kirkland are scheduled to attend the August meeting. Mr. Bennett said he assumes that the Finance Director and City Manager will be attending that meeting as well. Christopher Lutton asked what James Slaton and Sarah Kirkland would be talking about at the August meeting. Ms. Ecklund explained that James is very passionate about projects because he is in charge of many outside construction projects, etc. so he does want to be connected with this board. Whatever this board decides it would like to do moving forward, James would be the one managing those type of projects. He does not have an agenda; he just wants to know what this board is talking about so everyone could be working in the same direction. If the projects are regarding CRA projects that have something to do with utilities, Sarah is the project manager on that side so that is why she would like to be working with this board and be present at the meeting. Whatever is being discussed they want to be able to provide feedback.

Chairman Bennett said their homework for this meeting was to review all the documents that were provided to them in their agenda packet and to come back to this meeting with some thoughts and comments for City staff. As a board, we present that to staff to work on and they bring it back to the August meeting.

Mr. Lutton asked Ms. Ecklund to explain the "Draft Five Year Capital Improvement Plan for FY'2016/17–2020/21" sheet included in the agenda packet. Ms. Ecklund said the Commission and the CRA Board has not approved the proposed Five Year CIP yet and she is not sure what staff member put those items on there. Some of the items are community redevelopment so those are not necessarily the CRA because there are some Code Enforcement vehicles listed. Mr. Lutton inquired about the walking trail listed on the document and Ms. Ecklund said that is a question for James Slaton. He is the one to explain what that

encompasses and grant money that goes with it. Chairman Bennett said he wondered what the trail was, the trail's purpose, and because of its costs if it was a FDOT project. Mr. Lutton said the document does not describe the project or provide information about it. Chairman Bennett said that under walking trails, it shows CRA as the department but on the project sheet, it shows the funding source as the City. Ms. Ecklund explained there are two funding sources for that project and again James would have to be here to talk about the project. Part of the project might be paid with impact fees, which would be the City, and the other part could be paid with CRA funds. That is not her decision to make. James would have to explain the allocations.

Mr. Lutton asked if the tax increment revenue was from CRA and Ms. Ecklund confirmed. Chairman Bennett said that caught his eye. It is not a merited project. The trail in town is a good idea but is that the best use of CRA dollars. At the last meeting the board talked about focusing on coming up with some priorities that are more oriented toward fixing the built environment, getting buildings fixed, pumping out neighborhoods and things like that. He does not know if doing the trail and paying for it with CRA dollars accomplishes the goal of fixing up the built environment. He would like to see more CRA money going toward demolition and acquiring lots so the City can give them to builders or sell them etc. Ms. Ecklund said this conversation needs to be with the City Manager and James Slaton but she will speak for them if need be. Chairman Bennett asked Ms. Ecklund how the trail would be funded and Ms. Ecklund said that would be the City Manager's decision because it is his budget, which is why he needs to be at these meetings.

Mr. Lutton said he had not seen the Martin Vargas study before that was included in the agenda packet. There are some interesting ideas in there and some of them are still viable. It is a nice document to keep looking back at. He will spend the time reading it to determine if the plan is worth spending the money redoing it. Planning & Development Director Kathy Bangley explained that the proposal was for the downtown only and not the CRA at large although it is a component thereof. Mr. Lutton asked if the idea is for the consultant to redo the entire CRA plan and Ms. Bangley confirmed and said the last update was in 2007. Chairman Bennett said he was glad to see there was some money set aside in the budget for a CRA plan update. There is some statute that said any project must be consistent with the CRA plan. Mr. Lutton asked if that is in the current, year's budget and Ms. Bangley said no, it is in the proposed budget being considered for adoption. Mr. Lutton said he did not see that and Ms. Ecklund said it might have been added after the board received its agenda packet.

City Manager Kenneth Fields who had just arrived at the meeting, said in the last budget proposal the Commission considered a week ago Tuesday there was \$40,000 for a CRA plan update and \$40,000 designated for the beginning of a downtown revitalization plan. At Tuesday night's budget workshop, meeting a proposal was made to increase the \$40,000 for the downtown to \$100,000 and for the increase to come out of the existing CRA reserves, which is yet to be voted on by the Commission. Mr. Lutton said \$100,000 is a lot of money. Mr. Fields clarified that staff had recommended \$40,000 to begin a downtown revitalization plan and one of the Commissioners recommended increasing that to \$100,000 without clearly defining what that money would be used for although the reply was creation of a Main Street organization of some kind consisting of downtown businesses, community leaders, etc. but that was not clearly stated. Commissioner Lutton said from a tax paying citizen standpoint he would want to get a \$100,000 return on that money.

Chairman Bennett said since their emphasis should be on the built environment and if CRA money is going to be spent on a trail, less money should be spent on a trail and more money spent on demolition and land acquisition to get new structures built. The City of Auburndale has \$50,000 available to fix up a building; the City of Winter Haven just implemented a program for their CRA to subsidize residential development in the downtown up to \$5,000 a unit. The developer pays it and then gets it back in rebates; and the City of Haines City has a façade grant program. Chairman Bennett said he is not here to tell staff how to accomplish goals, he is just throwing them out as options of ways to accomplish the goal of improving the built environment.

Chairman Bennett asked what the intent is for the next meeting. Mr. Fields said the goal would be to facilitate writing of a new CRA plan to establish goals for the CRA. This requires input from this board and the citizens. Now, that we actually have some discretionary funding in the CRA for the next few years we

need to decide what we are going to do with it. We were successful this past year with the money that was set up in the CRA for demolition and code enforcement. The money that was set aside for demolition allowed us to attract some county CDBG money. We had hoped to do 10 structures this year but we are going to end up doing 12 or 15 instead. Ms. Bangley said 10 structures have been demolished already and the City has not paid for any of them, yet. Mr. Fields said the money set aside for next year was to update the plan in the direction we want to go. We allocated \$75,000 again for code enforcement in next year's proposed budget. The other \$40,000 proposed by staff was to start the development of a focused downtown revitalization plan. The downtown is not going to go anywhere without a huge amount of citizen input. We need to know what people want to see in Lake Wales especially in the downtown. It is a long involved process and it requires many community meetings. The proposal was to get a facilitator to come in and help develop that plan and then that proposal was bumped up to a \$100,000 to jump start Main Street again. This will be discussed again at the next budget workshop and this board can weigh in on that for the Commission would be happy to hear what it has to say. This will not happen overnight. It will probably be a one or two year process. Unless you get broad citizen buy-in on what they want in the downtown, nothing will work. If you develop a community on consensus, it will begin to attract some business entrepreneurial type that we need. It just takes one good project to lure people to follow.

Mr. Lutton said he is prepared to talk about this a little more right now and start editing the existing plan, which are the simple things that have changed since the last update and then look at the priorities. He said when you talk about demolishing terrible looking buildings it is great to hear that some of the property owners are doing it themselves. If the City liens the property it demolishes it will eventually own the property, which the City is not in the business of buying and selling property. This could create a conflict because you might have some developers asking why certain people get all the property so it is not good to rear that ugly head. It would be interesting to know how many structures the City demolished in the last couple of years and how many of those properties the City owns as a result. This board needs to come up with directions to give to citizens on what they can do, what kind of incentives we want to give, how do we want to get rid of the property or if we want to put another house or commercial building on it etc. which will be good direction to the City Commission. Ms. Bangley said we have not taken ownership of any properties in the last two years through this process. We just placed about \$50,000 worth of service liens on the non-ad valorem tax roll for next year that has been owed the City for the last 10 years. She explained that we have not gone the foreclosure route yet but had many discussions on what to do. Commissioner Lutton said if we are not careful, we could spend \$18,000 on a piece of property that might only be worth \$5,000.

Narvell Peterson said most of the properties are too small to build a home so no one wants to buy them. Habitat, however, could put some type of small single-family home on there. Ms. Bangley said many of the lots located in the older parts of town are small. Habitat usually consolidates two properties that are side by side and builds a home on there. The only thing the government probably can do instead of building that new house is set the stage for clear title so the land is ready to go, Chairman Bennett said a way to fix up a neighborhood would be to tear down what is bad and build something new.

Mr. Lutton said his house is within the CRA and he pays tax dollars for that. If we are singling out an area, that tax is not benefiting him as a general citizen. The Martin & Vargas master plan for downtown has ideas and examples for City parks and things like that. When he was on the planning board, they talked about putting a park on the piece of property on the other side of Scenic Hwy, between there and the Presbyterian Church. Although, it might be considered infrastructure, the positive thing for the City to do is make it a City street park. A greenscaping project is better around the downtown because everybody can enjoy it and it would draw people and businesses down there. We just spent a lot of money on two streets there doing landscaping. Mr. Fields said that was one of the ideas about the trail or the idea of a corridor between the Depot Museum up to the Library and down to the lake, which is an underused asset to the downtown. So far, the railroad seems to be cooperative but we have to maintain their right-of-way. We need to create some type of attraction there to bring people to the downtown. This year's budget addresses some of those issues. The large infrastructure investment that was made about eight years ago made it possible for anything to be built downtown. We have fire coverage and sewer lines in place there, which has to be in place before anything can be built in the downtown. We are starting that process but we need citizen input, which begins with this board to keep the process going. This leads to putting money aside for built projects. The greenscaping trail and the newspaper bin projects are important. The

newspaper bin project will be done this year to clean up the mess in front of the Post Office and on Market Street.

Mr. Lutton said a grant funding facade program should be a priority of the CRA, which is important to do. Most of the facades in the downtown area look to be in fairly, good condition which is concerning because if we spend a million dollars on façade appearance in the downtown they have to look good. He would like his tax dollars spent on stuff that he can personally enjoy.

Chairman Bennett said he lives in a subdivision where the roads have not been paved since the subdivision was built in the early 70s. Now, there are potholes and deteriorated streets there. CRA money could be used to redo that but spending it on the trail could spur downtown and create that greater public benefit.

Mr. Lutton said we could list in the CRA plan the other parks we have such as the dog park, Soccer Park, and Skate Park. Ms. Ecklund asked that the board wait until the consultant does what he has to do. Mr. Lutton said the board needed to edit the plan before a consultant does what he has to do. It is better for a hired professional to take the revised document and verify what is listed, expand etc. Mr. Lutton said if you give an engineer or a planner a blank slate you typically will not be happy with what they come back with. Ms. Scott said that is what we did before. A person from Winter Park came in and developed the plan like Winter Park, which did not work for Lake Wales. Ms. Bangley said when we go to develop the scope of work for the RFQ or RFP to hire somebody we could get this board's input, Commission input, and possibly citizen input. We need to update what we have first and create the scope of work so we do not end up with a Winter Park plan suggested for Lake Wales. So we want to make sure our RFP asks for what we want. Mr. Fields said when it comes to developing plans of this nature you have to meet with the community to get input on issues to before starting to write a plan or it will not work.

Mr. Lutton said the board needed to correct the current plan as a starting point so a professional does not have to do a lot of legwork. Some people have a residential vision and can see those 25 years ahead. Citizens can think of things what we might not think of. It does take citizen input. Mr. Peterson said it is a good idea to get the citizens involved so we can be on top of issues and get input on what we need to do to make this City a better place to live, which are things that should have been done yesterday. Mr. Lutton said CRA tax dollars should be spent on something that everyone can enjoy such as the trails. Chairman Bennett said the challenge would be defining that fine line between focusing on the built environment versus infrastructure. He can see where putting a trail in a park would spark the community around it to accomplish the goal of a built environment but in his mind, demolishing structures and acquiring the land may be more of a direct focus. This is all good stuff. The idea of the trail has a merit but his only concern is should CRA money focus that much on it.

The Committee reviewed the 2007 CRA Plan and staff provided input as to what projects had and had not been completed. Mr. Lutton asked about Monk Griffin Trail and staff did not know what that was. Chairman Bennett said he heard it was a trail to be built around Crystal Lake.

Mr. Lutton said the entryways are in the budget and he personally thinks that should be the #1 priority because it is important to lure people off our two major highways into the downtown or else they will not know what we have here.

Chairman Bennett said at the next meeting the board would hear what the rest of staff has to say, find out what happened at the City Commission meeting and get an update on the CIP and whatever else the Commission is proposing, and then the board will know at that meeting if they are comfortable providing a recommendation to staff.

COMMUNICATIONS & PETITIONS

The public did not attend.

Chairman Bennett asked if the third Thursday at 5:00 p.m. is good time to meet because sometimes the Historic District Regulatory Board meets that night at the same time. Ms. Bangley said the Historic District

Regulatory Board only meets about twice a year for about 30 minutes. Mr. Fields recommended moving the CRA Citizen Advisory Committee meeting to 5:30 p.m. only when the Historic Regulatory Board is meeting at 5:00 p.m. He said it might be necessary at times for both boards to have a joint meeting if the need should arise.

Mr. Peterson said he has a problem with garbage cans left out on his street and all around in the neighborhood. If that happens in Haines City, residents will be fined. Something should be done about that in Lake Wales as well. Ms. Bangley said City Code does stipulate when cans can be put out and within what time frame they must be put back. She said Code Enforcement is working toward creating a fine schedule but in the right now, all they can do is cite them for a violation and ask that they comply.

There being no more business to discuss, Chairman Bennett adjourned the meeting at approximately 6:19 p.m.

The August 18, 2016 CRA Citizen Advisory Committee meeting was held in the City Commission Chamber in the Municipal Administration Building at approximately 5:45 p.m. Chairman Mark Bennett called the meeting to order.

MEMBERS PRESENT: Narvell Peterson; Jean Kincaid Scott; Christopher Lutton; Mark Bennett, chair

MEMBERS ABSENT: None

CITY STAFF PRESENT: Clara VanBlargan, City Clerk; James Slaton, Public/Support Services Director

Agenda Item 1. ROLL CALL

Agenda Item 2. Approval of Minutes: July 21, 2016

The Committee postponed Agenda Item 2, approval of the July 21, 2016 meeting minutes until its next meeting.

Agenda Item 3. Planning Session with Staff on the Revision of the 1999 CRA Plan as Amended in 2007.

James Slaton, Public/Support Services Director, gave a PowerPoint presentation providing an overview of the CRA projects proposed for FY-2016-2017, which included the following:

- **City Net Wifi Expansion, \$25,000** – Mr. Slaton explained the purpose and reasons for the City Net Wifi expansion and said it was an economic development related project. Chairman Bennett and Mr. Lutton asked why the project would be paid for with CRA funds and why the ball fields were not selected as a location for Wifi. Mr. Slaton said the goal is to make Wifi available in every City owned facility, which they are in the process of doing now. Wifi is a recreational quality of life and parks in the CRA Plan. Mr. Lutton said Wifi is infrastructure and he does not think it is related to the goals of the CRA and if it were approved it should be put in the ball fields and stadiums first because you will get more bang for the buck than having it at the Stuart House.
- **Central Avenue/Scenic Highway Parking Lot Restoration, \$77,960** – Mr. Slaton showed a current and a proposed picture of the parking lot that he obtained from a premier streets project a few years ago. He said all this property belongs to the railroad and the City has a 30-year lease agreement with them so they must get permission to do anything there.
- **Phase 1 – Downtown Walking Trail/Park Construction, \$252,963** – Mr. Slaton showed a complete overview of the downtown walking trail that he said consisted of three phases, which he explained and said it will begin at Central Avenue and end at Lake Wales Park. The 2008 Martin Vargas Plan included a central park and from discussions, the idea was to eventually connect the downtown to the Lake, increase the walking trails, expand the perimeters of downtown, and beautify Scenic Highway. The rendering showed pictures of resting and gathering places along the proposed trail with landscaping and a Gazebo. Phase 2 will pick up at the Library and go north around Crystal Lake and then tie into the recreation facilities at the Tourist Club Complex and down into some existing infrastructure down to the lake. The idea for Phase 3 is to include boardwalk constructed around Crystal Lake. Chairman Bennett said the Monk Griffin Trail was going to do that and be named after Monk Griffin, a longtime City employee that worked in the Parks Department for 35 years and who had always maintained the trail around Crystal Lake so

that was the purpose of listing Monk Griffin Trail in the CRA Plan and the project never happened. The City Clerk said the City got a grant to do the project but because the City did not have the matching funds, the Commission chose not to do the project and returned the money. **Chairman Bennett said that boardwalk around Crystal Lake should still be called the Monk Griffin Trail for a lot of citizen input that went into that.** Mr. Slaton agreed and said the trail will end at the bike path around the lake and then at some point possibly connect to the bike path on the north end to the Rails-to-Trails. Mr. Lutton said you would have to do all the design work in the first phase to avoid a malfunction in the other phases.

Mr. Slaton said the idea is to have a monument at each resting place and the thought was to have community partners such as the Care Center, EDC, and the Charter Schools and have each of them come up with some type of statute or artwork representing their organization or entity. Chairman Bennett said in Crystal Lake Park and around Lake Wales there are wrought Iron benches and gates and all having a similar design scheme which was intentional in coming up with a common Lake Wales theme. We can use that design theme for the benches, etc. in the resting places along the trail. Mr. Slaton said that could be considered and Mr. Lutton said we needed that continuity flowing throughout the whole City. Mr. Peterson said it is a great idea to get community organizations involved.

Ms. Scott said between Scenic Highway and Crystal Lake is where everyone parks and people can be little destructive when there is a parade downtown. Mr. Lutton said they park on anything that is flat which should be mentioned to the designer for making the trail non-automobile friendly. Chairman Bennett asked if water fountains and mile markers were considered and Mr. Slaton said he had not thought about it.

Mr. Lutton asked who did the design work shown in the PowerPoint and Mr. Slaton said Hoyle Tanner. Mr. Lutton said it would be nice if the landscaping actually looked like that. Mr. Slaton said he thought about reaching out to Bok Tower to see if they might be interested in playing a role in the park in some way and having mini Bok type place close the Library. Mr. Lutton said maintenance could be sort of labor intensive.

- **Demolition of Condemned Structures, \$75,000** – Mr. Lutton said a quantity of dwellings needing to be demolished should be included with the dollar amount and that dollar amount and number of dwellings needing demolition should start coming down. We should be left with vacant lots and a lot being better maintained. Chairman Bennett asked if staff had conducted an inventory to determine how many structures needed demolishing. Mr. Lutton said Kathy said they have a list of structures ranked according to current condition. Mr. Slaton said the plan is to design it so that City personnel can easily maintain the property. Mr. Peterson said you get no help if you do not ask community organizations for assistance. The City used to have adopt-a-street and adopt-a-park programs.
- **Consulting Services for Revised CRA Plan, \$40,000** – Mr. Slaton said money was put in the proposed budget to hire a consultant to revise the current CRA Plan.
- **Main Street Funding, \$100,000** – Mr. Slaton said Commissioner Gibson pushed hard for Main Street funding of CRA \$100,000 so that was put in the proposed budget. This is a not-to-exceed amount and the Commission has yet to define what the perimeters, goals, and milestones that Main Street has to meet before releasing of any funds. Even then, there might be a drawdown so some of those funds could go toward a downtown master plan.

Mr. Lutton said entryway improvements are supposed to be in the second year of the CIP Plan. Because it takes a long time coming up with something good, it should be included in the following year's budget as well.

Chairman Bennett said one of the projects the Committee came up with was to beautify Scenic Highway entrances to the City initially the north entrance, which is what he, was envisioning this doing, and

implementing that priority. Mr. Lutton said the problem is we do not have two entrances on Scenic Highway, instead we have sort of gangbuster form of entrances. **We first need to identify every location that we** are going to put something and come up with a design theme between everything so we can build them one at a time. It would be disastrous making the designs different. The entryway improvements need accomplishing to start a master plan. An entryway improvement is an undefined improvement that includes landscaping, signage, etc. We need to decide location for placement of the north entry sign such as near the mall or past Home Depot. Mr. Slaton said those locations are outside the CRA boundaries so CRA money cannot be used for that. Mr. Slaton said that he had "Welcome to Lake Wales" signs designed similar to those in other communities and he will check the draft budget to see if the signs are still there. Chairman Bennett said this board is supposed to recommend placement of those signs to the Commission and that the board specifically asked for Scenic Highway entryways so that should be first on the list when prioritizing. Mr. Slaton said those are in the general fund budget and suggested using general fund dollars for the entryway on Hwy. 27 and on SR 60, and then use CRA funds to pay for the one on north Scenic Highway. Mr. Lutton said entryway signage is a Planning Department issue so they should be the one coordinating it all.

Mr. Peterson said the Committee asked for a quarterly progress report from Code Enforcement showing the activities. Chairman Bennett said the board listed that report as a priority and requested that the City Clerk check with Kathy Bangle on that that.

Chairman Bennett said he does not have a problem with the Wifi concept but he is not sure that it is the best use of CRA funds giving the priority of the CRA is supposed to be the built environment.

Chairman Bennett said he noticed that there was some stuff taken out of the current CRA Plan about land assembly but that could be a tool for the CRA. Money should be budgeted for land acquisition and some sort of program to get new houses built. Mr. Peterson said it is difficult to rebuild a house on the smaller lots. It would take two connecting lots to build a decent house. We could donate the lots to Habitat for Humanity because they can do something with them. Mr. Lutton said Kathy had told him that they are liening the property after demolishing a house and not taking possession of them. Mr. Slaton said staff has an inventory of lots the City took possession of over the years and have been selling them. Six or eight sold last year. Chairman Bennett said the new CRA Plan should first come up with some strategies for neighborhood revitalization before money is budgeted for land acquisition.

Mr. Lutton said the deadline set by the CRA for completing the new CRA Plan is at the end of February and Chairman Bennett said that needed to be done sooner than later. Mr. Lutton said if we are waiting until October 1 to get the new money they needed to make sure that is going and asked if the Committee should attend an upcoming Commission meeting and ask that question. Chairman Bennett said this Committee will have the City Clerk draft a memo summarizing the recommendations and the memo should include emphases on expediting the CRA Plan. An emphasis should also include coming up with a common design theme for City projects.

Mr. Lutton said at the last board meeting Ken Fields said there were \$40,000 budgeted for Main Street to do a study and an extra \$60,000 for a Main Street coordinator. It is concerning because he sees no value in that \$60,000 although they said it would be done on the EDC methodology. He would like to see the consultant's view of the downtown before we let money loose for items in the downtown because that person might limit the number of projects on the list.

Mr. Lutton made a motion to approve \$40,000 of the \$100,000 for the Main Street study and the balance of \$60,000 to be contingent on the results of that study. Mr. Peterson seconded the motion. There was no vote.

Chairman Bennett said he would not vote for the Wifi because CRA funds should not pay for it. Ms. Scott said many cities have Wifi for people to use but she does not understand why the City has to pay for it. Mr. Slaton said it does not have to for it is only an amenity but we can keep up with what other cities are doing or continue staying behind. Chairman Bennett said the CRA budget should not pay for it.

Mr. Lutton made a motion recommending that the CRA Board approve the following items with the exception that the City Wifi is paid for with the general operating funds and not with CRA funds and that \$60,000 of the \$120,000 allocated for Main Street is to be contingent upon the results of the study. Mr. Peterson seconded the motion. The Board unanimously approved.

- CityNet Wifi Expansion \$25,000
- Central Avenue/Scenic Hwy Parking Lot Restoration \$77,960
- Phase 1 - Downtown Trail Construction \$252,963 *
- Demolition of Condemned Structures \$75,000
- Consulting Services for Revised CRA Plan \$40,000
- Main Street Funding \$100,000

* \$120,000 from CRA Dollars

Chairman Bennett asked the next step of the board. Mr. Lutton said the advisory board should request that the City get proposals or RFPs for the CRA study and bring them to the September meeting. If the board approves an RFP in September, they can get the contract done in October. Chairman Bennett said the board could review the proposals and make a recommendation to the CRA.

Mr. Lutton asked Mr. Slaton to have staff start getting RFPs for updating the CRA Plan and present that to the board in the September for selection of a consultant because the internal goal was made to complete the new CRA Plan by the end of February. Mr. Slaton suggested collecting RFPs that other municipalities have done although they will be different and bring those back to the board to come up with something more customized for Lake Wales, get an approval, and then submit that to the CRA. The board could also have input on the ranking process. Chairman Bennett said if it was decided that we would like everyone to have a pink roof for example, we could put that in the RFP.

Chairman Bennett said what this board can concentrate on over the next few months is developing a CRA Plan by providing advice in developing the RFP; recommending what consultant will do the project; and then continue providing advice throughout the project.

Ms. Scott inquired about the Scenic Highway sidewalk project that is supposed to go from Haines City to Frostproof. Chairman Bennett explained that in 2009, FDOT developed a Project Development & Environment (PD&E) Study to construct a big sidewalk from Haines City to Frostproof and each City in the county has a copy of that study. During the time he worked for the City of Haines City, they used that document as a justification to get a grant and they used that to repave the section of Scenic Highway in Haines City. FDOT threw in some money from a different pot of money to widen the sidewalk on one side and then constructed a new sidewalk on the other side and the justification for that was the PD&E Study. He advised that each City should be using that study as a basis of going through the trail prioritization process to get funding to put those improvements in. The PD&E Study also talked about having Scenic Vistas, places to stop off and look at stuff. FDOT did some work on sidewalks on Scenic here in town a couple years ago that was sort of maintenance related, they did not do new sidewalks but he does not know if that improvement was tied to Scenic Highway Trail. Mr. Lutton said they did not do any widening or bigger sidewalks and Mr. Slaton said they rehabbed them. Chairman Bennett said there is a Scenic Highway entity group comprised of representatives from all the cities on the corridor that are supposed to be helping out with that effort. Mimi [Mimi Hardman] was the City's representative for many years. Mr. Lutton said the board is advisory in nature with no design constraints on anything regarding Scenic Highway so it does not have any real teeth in making it contiguous and uniformed all the way down Scenic Highway.

COMMUNICATIONS & PETITIONS

The public did not attend.

There being no more business to discuss, Chairman Bennett adjourned the meeting at approximately 6:56 p.m.

6. NON-COLLUSIVE AFFIDAVIT

- 6.1 Each Offeror shall complete the Non-Collusive Affidavit Form and shall submit the form with the Proposal. CRA considers the failure of the Offeror to submit this document to be a major irregularity and may be cause for rejection of the Proposal.

No responsibility will attach to the Purchasing Office for the premature opening of a Proposal not properly addressed and identified.

However, the Offerors are requested to identify specifically any information contained in their Proposals which they consider confidential and/or proprietary and which they believe to be exempt from disclosure, citing specifically the applicable exempting law.
- 9.7 All Proposals received from Offerors in response to the Request for Proposal will become the property of CRA and will not be returned to the Offerors. In the event of Contract award, all documentation produced as part of the Contract shall become the exclusive property of CRA.

10. MODIFICATION AND WITHDRAWAL OF PROPOSALS

- 10.1 Proposals may be modified or withdrawn by an appropriate document duly executed (in the manner that a Proposal must be executed) and delivered to the place where Proposals are to be submitted at any time prior to the deadline for submitting Proposals. A request for withdrawal or a modification must be in writing and signed by a person duly authorized to do so. Evidence of such authority must accompany the request for withdrawal or modification. Withdrawal of a Proposal will not prejudice the rights of an Offeror to submit a new Proposal prior to the Proposal opening date and time. After expiration of the period for receiving Proposals, no Proposal may be withdrawn or modified.
- 10.2 If, within twenty-four (24) hours after Proposals are opened, any Offeror files a duly signed, written notice with CRA and within five (5) calendar days thereafter demonstrates to the reasonable satisfaction of CRA by clear and convincing evidence there was a material and substantial mistake in the preparation of its Proposal, or that the mistake is clearly evident on the face of the Proposal but the intended correct Proposal is not similarly evident, then Offeror may withdraw its Proposal and the Bid Security will be returned. Thereafter, the Offeror will be disqualified from further bidding on the subject Contract.

11. REJECTION OF PROPOSALS

- 11.1 To the extent permitted by applicable state and federal laws and regulations, CRA reserves the right to reject any and all Proposals, to waive any and all informalities not involving price, time or changes in the work with the Successful Offeror, and the right to disregard all nonconforming, non-responsive, unbalanced or conditional Proposals. Proposal will be considered irregular and may be rejected, if they show serious omissions, alterations in form, additions not called for, conditions or unauthorized alterations, or irregularities of any kind.
- 11.2 CRA reserves the right to reject the Proposal of any Offeror if CRA believes that it would not be in the best interest of the CRA to make an award to that Offeror, whether because the Proposal is not responsive or the Offeror is unqualified or of doubtful financial ability or fails to meet any other pertinent standard or criteria established by CRA.

12. AWARD OF CONTRACT

- 12.1 The Contract should be awarded by CRA to the most responsible and responsive Offeror(s) for the Proposal(s) whose evaluation by CRA indicates to CRA that the award will be in the best interests of the CRA and not necessarily to the lowest Offeror.

- 12.2 The Offeror to whom award is made shall execute a written contract (if required) prior to Notice of Award. If the Offeror to whom the first award is made fails to enter into a contract as herein provided, the award may be annulled and the contract left to another Offeror who is responsible and responsive in the opinion of CRA. Such Offeror shall fulfill every stipulation embraced herein as if he were the original party to whom the award was made.

SPECIAL CONDITIONS TO INSTRUCTIONS TO OFFERORS

13. QUALIFICATIONS OF OFFERORS

- 13.1 Each Offeror should complete the Qualifications Statement and submit the same with his Proposal. Failure to submit the Qualifications Statement and the documents required thereunder with the Proposal may constitute grounds for rejection of the Proposal.
- 13.2 No proposal shall be accepted from, nor will any contract be awarded to, any person, who is in arrears to CRA, upon any debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to CRA, or who is deemed irresponsible for unreliable by CRA.

14. INDEMNIFICATION

- 14.1 GENERAL INDEMNIFICATION: To the fullest extent permitted by laws and regulations, Successful Offeror shall indemnify, defend, save and hold harmless the CRA, its officers, agents and employees, harmless from any and all claims, damages, losses, liabilities and expenses, direct, indirect or consequential arising out of or in consequential arising out of or alleged to have arisen out of or in consequence of the products, goods or services furnished by or operations of the Successful Offeror or his subcontractors, agents, officers, employees or independent contractors pursuant to or in the performance of the Contract.
- 14.2 PATENT AND COPYRIGHT INDEMNIFICATION: Successful Offeror agrees to indemnify, defend, save and hold harmless the CRA, its officers, agents and employees, from all claims, damages, losses, liabilities and expenses arising out of any alleged infringement of copyrights, patent rights and/or the unauthorized or unlicensed use of any invention, process, material, property or other work manufactured or used in connection with the performance of the Contract, including its use by CRA.
- 14.3 The Successful Offeror shall pay all claims, losses, liens, settlements or judgments of any nature whatsoever in connection with the foregoing indemnifications including, but not limited to, reasonable attorney's fees (including appellate attorney's fees) and

costs.

- 14.4 CRA reserves the right to select its own legal counsel to conduct any defense in any such proceeding and all costs and fees associated therewith shall be the responsibility of Successful Offeror under the indemnification agreement. Nothing contained herein is intended nor shall it be construed to waive CRA's rights and immunities under the common law or Florida Statute 768.28 as amended from time to time.

15. CONTRACT TIME

- 15.1 The work to be performed under the Contract shall be commenced upon issuance of Purchase Order.
- 15.2 The number of days within which the work is to be completed or goods are to be provided is one hundred eighty (180) consecutive calendar days from the date of the commencement of the Contract time.

The Successful Offeror agrees that all work shall be prosecuted regularly, diligently and uninterrupted at such rate of progress as will ensure full completion thereof within the time specified. Failure to complete the work within the time period specified shall be considered a default.

16. WARRANTIES

- 16.1 Successful Offeror warrants that there has been no violation of copyrights, patent rights or licensing agreements in connection with the work of the contract.
- 16.2 Successful Offeror warrants to CRA that it is not insolvent, it is not in bankruptcy proceedings or receivership, nor is it engaged in or threatened with any litigation, arbitration or other legal or administrative proceedings or investigations of any kind which would have an adverse effect on its ability to perform its obligations under the Contract.
- 16.3 Successful Offeror warrants to CRA that it will comply with all applicable federal, state and local laws, regulations and orders in carrying out its obligations under the Contract.

17. NONDISCRIMINATION AND EQUAL OPPORTUNITY EMPLOYMENT

- 17.1 During the performance of the Contract, the Successful Offeror shall not discriminate against any employee or applicant for employment because of race, religion, color, sex or national origin. The Successful Offeror will take affirmative action to ensure

that employees are treated during employment, without regard to their race, creed, color, or national origin. Such action must include, but not be limited to, the following: employment, upgrading; demotion or transfer; recruitment or recruitment advertising, layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. In the event Successful Offeror has failed to correct the conditions of default or the default is not remedied to the satisfaction and approval of CRA, CRA shall have all legal remedies available to it, including, but not limited to termination of the Contract in which case Successful Offeror shall be liable for all procurement and reprocurement costs and any and all damages permitted by law arising from the default and breach of the Contract.

20. TERMINATION FOR CONVENIENCE OF CRA

20.1 Upon seven (7) calendar days written notice delivered by certified mail, return receipt requested, to Successful Offeror, CRA may without cause and without prejudice to any other right or remedy, terminate the agreement for CRA's convenience whenever CRA determines that such termination is in the best interests of CRA. Where the agreement is terminated for the convenience of CRA, the notice of termination to Successful Offeror must state that the Contract is being terminated for the convenience of CRA under the termination clause and the extent of termination. Upon receipt of the notice of termination for convenience, Successful Offeror shall promptly discontinue all work at the time and to the extent indicated on the notice of termination, terminate all outstanding subcontractors and purchase orders to the extent that they relate to the terminated portion of the Contract and refrain from placing further orders and subcontracts except as they may be necessary, and complete any continued portions of the work.

21. AUDIT RIGHTS

Request for Qualification Statements – Community Redevelopment Plan Update
PROJECT NO. 1616CD

SECTION 1.0: INTRODUCTION AND INFORMATION

The Dade City Community Redevelopment Agency (CRA) desires to update and amend the Dade City Community Redevelopment Plan (CRP) in consideration of **1)** changes in market and other conditions in the designated redevelopment area since the CRP's adoption in 1999 and **2)** current community aspirations for the redevelopment area. The CRP is intended to propose a general work program and timeframe within which public and private resources may be used to accomplish a sufficient degree of rehabilitation, restoration, infrastructure improvement, and redevelopment activity. The CRP should include recommendations for the use of public resources within the redevelopment area and may include recommendations regarding the acquisition and disposition of land in the area. The CRA intends to evaluate submitted proposals and award one firm exhibiting experience in writing community redevelopment (downtown) plans.

Amendments to the adopted CRP must meet the standards and requirements set forth in the Community Redevelopment Act of 1969, Chapter 163, Part III, Florida Statutes. The amended CRP shall be based, in part, on the conditions identified in the original Finding of Necessity for Redevelopment and propose methods by which those conditions may be ameliorated. Furthermore, amendments to the CRP shall be consistent with the adopted Comprehensive Plan and existing zoning in the redevelopment area, or suggest appropriate amendments to achieve consistency.

BACKGROUND

Lake City is a 150-year-old city with a rich history and exciting future. Also known as the “Gateway” to Florida, Lake City is the County seat of Columbia County in Northeast Florida. Lake City offers a diverse economic and cultural palette within its core CRA, including substantial medical and governmental operations, blended with a variety of retail eating and shopping establishments.

Located within the heart Columbia County, the greater Lake City area is the home of over 45,000 people with diverse backgrounds and interests. It's a downtown where residents, office workers

and visitors stroll comfortably along the historic streets, shop in antique stores, or sample restaurants where menus range from hotdogs to Italian cuisine. In 1989, the City Council of the City of Lake City recognized that the City's downtown and inner city was an all too common victim of the shifts in the 60's and 70's to suburban living and designated approximately (256 blocks) of the Lake City Inner City area as a community redevelopment area under Florida Statute 163 for the focus of rehabilitation, conservation and redevelopment activities.

The last comprehensive update of the Urban Core Redevelopment Plan was undertaken in 1989 and incorporated long-range projects and objectives to revitalize the CRA. The projects and elements of the plan have been consistently implemented. In addition, a number of small area or task specific plans, studies and reports have been developed within the CRA including:

The CRA Plan Update

Culturally, the nation is changing its attitudes towards cities and urban living. Broad economic, social and cultural forces are reshaping the face of our urban environment. These forces give areas such as downtown Lake City the best opportunity to compete in decades. Our challenge is to develop a plan that realizes our full potential. The intent of the CRA Plan Update is to provide a document that establishes the framework for transformative policies and investments in the CRA area. Within that context the plan will provide policy, programmatic and fiscal direction for the CRA as we reshape our urban landscape.

Strategic Framework

In our strategic framework talent, connections, distinctiveness and innovation; are identified as key elements which provide the basis for our next steps. The idea behind this framework is:

Distinctiveness, we must aspire to offer professional opportunities to attract young people to want to live, work and raise a family in our area. Our urban amenities, historic neighborhoods, downtown living, cultural attractions gives us a competitive niche...to attract workers, residents and tourists.

Innovation is the driver of the economy. Therefore, we need to promote investment in technology infrastructure.

Conceptual Themes

Within the strategic framework the CRA has embraced two conceptual themes: The Urban Core and The Waterfront. The update should build upon these themes.

- The update would guide the strengthening of our downtown core as a regional landmark and an important destination.
- The update would guide us in creating an attractive amenity in around Lake DeSoto that adds to the identity and livability of the City.

Several theme features are embedded in Downtown Action Plan adopted by the City in 2008.

Goals for the Urban Core and Waterfront

Urban Core Goals:

Build upon community strengths
Create strong destinations for development / investments
Connect new investments with existing community fabric
Link destinations to neighborhoods and waterfront to establish a multi-dimensional downtown.

Waterfront Goals:

Increase the awareness of Lake DeSoto waterfront.
Promote the diversity of the waterfront by creating opportunities for parks, cultural recreational, educational, and entertainment experiences
Connect the waterfront to the city linking neighborhoods and downtown
Preserve and enhance the natural areas along the water's edge

Plan Strategic Guiding Principles

The following principles should guide the development of the updated plan. It is believed that successful cities should be:

Prosperous - attracting jobs and investment
Diverse - social and economically inclusive
Distinctive - our historic and cultural destinations
Walkable - focus on the pedestrian environment
Green - promoting our natural landscape

The anticipated strategies to be employed through the updated plan are to identify transformative investments which are multi-dimensional efforts that remake the urban physical environment to stimulate economic growth, improve fiscal vitality and advance social equity. The strategies are to strengthen the five cornerstones of the CRA.

Moving Forward

At its best the update of the CRA Plan should:

Coordinate the goals of previously adopted plans and the Downtown Action Plan by incorporating them into a larger vision.

Provide a foundation for strategic action to share future success.

Be consistent with the guiding principles:

- o Prosperous
- o Diverse
- o Distinctive
- o Walkable
- o Green

STATEMENT OF PURPOSE

The City of Lakeland (the "City") from time to time enters into agreements, leases and other contracts with Other Parties (as hereinafter defined).

Such Agreements shall contain at a minimum risk management/insurance terms to protect the City's interests and to minimize its potential liabilities. Accordingly, the following minimum requirements shall apply:

CITY DEFINED

The term City (wherever it may appear) is defined to mean the City of Lakeland itself, its Commission, employees, volunteers, representatives and agents.

OTHER PARTY DEFINED

The term Other Party (wherever it may appear) is defined to mean the other person or entity which is the counter-party to the Agreement with the City and any of such Other Party's subsidiaries, affiliates, officers, employees, volunteers, representatives, agents, contractors and subcontractors.

LOSS CONTROL/SAFETY

Precaution shall be exercised at all times by the Other Party for the protection of all persons, including employees, and property. The Other Party shall comply with all laws, rules, regulations or ordinances related to safety and health, and shall make special effort to anticipate and detect hazardous conditions and shall take such precautionary and prompt action where loss control/safety measures should reasonably be expected.

The City may order work to be stopped at any time, without liability, if conditions exist that present immediate danger to persons or property. The Other Party acknowledges that such stoppage, or failure to stop, will not shift responsibility for any damages from the Other Party to the City.

INSURANCE - BASIC COVERAGES REQUIRED

The Other Party shall procure and maintain the following described insurance, except for coverage specifically waived by the City of Lakeland, on policies and with insurers acceptable to the City, and insurers with AM Best ratings of no less than A.

These insurance requirements shall in no way limit the liability of the Other Party. The City does not represent these minimum insurance requirements to be sufficient or adequate to protect the Other Party's interests or liabilities, but are merely minimums.

"Except for workers' compensation and professional liability, the Other Party's insurance policies shall be endorsed to name the City of Lakeland as additional insured. It is agreed that the Other Party's insurance shall be deemed primary and non-contributory with respect to any insurance or self-insurance carried by The City of Lakeland for liability arising out of the operations of this agreement."

Insurance Requirements (cont'd)

INSURANCE – BASIC COVERAGES REQUIRED (cont'd)

Except for workers compensation, the Other Party waives its right of recovery against the City, to the extent permitted by its insurance policies.

The Other Party's deductibles/self-insured retentions shall be disclosed to the City and may be disapproved by the City. They shall be reduced or eliminated at the option of the City. The Other Party is responsible for the amount of any deductible or self-insured retention.

Insurance required of the Other Party or any other insurance of the Other Party shall be considered primary, and insurance of the City shall be considered excess, as may be applicable to claims which arise out of the Hold Harmless, Payment on Behalf of the City of Lakeland, Insurance, Certificates of Insurance and any Additional Insurance provisions of this agreement, contract, or lease.

Commercial General Liability: This insurance shall be an "occurrence" type policy written in comprehensive form and shall protect the Other Party and the additional insured against all claims arising from bodily injury, sickness, disease, or death of any person other than the Other Party's employees or damage to property of the City or others arising out of any act or omission of the Other Party or its agents, employees, or Subcontractors and to be inclusive of property damage resulting from explosion, collapse or underground (xcu) exposures. This policy shall also include protection against claims insured by usual personal injury liability coverage, and to insure the contractual liability assumed by the Other Party under the article entitled **INDEMNIFICATION**, and **"Products and Completed Operations" coverage.**

The Other Party is required to continue to purchase products and completed operations coverage for a minimum of three years beyond the City's acceptance of renovation or construction properties.

The liability limits shall not be less than:

At all times throughout the period of required coverage, said coverage shall insure all claims accruing from the first date of the Contract through the expiration date of the last policy period. In the event that Other Party shall fail to secure and maintain such coverage, Other Party shall be deemed the insurer of such professional malpractice and shall be responsible for all damages suffered by the City as a result thereof, including attorney's fees and costs.

Request for Proposals

Lynn Haven CRA Feasibility Study and Redevelopment Plan Updates

The Lynn Haven Community Redevelopment Agency (CRA) seeks proposals from qualified firms with extensive experience in the preparation of Feasibility Study and Redevelopment Plan Updates. Only firms with extensive experience in preparing a CRA Plan amendment should apply.

The purpose of this update is

- to conduct a legislative Finding of Necessity Study to determine eligibility of study area's inclusion in the Lynn Haven Community Redevelopment Agency (CRA) area and update the Feasibility Study to reflect the new CRA boundaries;
- to develop a new Capital Projects and Programs list and update the Community Redevelopment Plan;
- and to extend the life of the CRA from 30 years to 40 years.

SCOPE OF WORK

Project Overview

The Lynn Haven CRA Community Redevelopment Agency (CRA) was established in 2003, following a decline in the Central Business District, and the emergence of strip commercial development. A study was conducted which determined that a CRA was feasible within the Lynn Haven CRA. The CRA is now proposing a new Feasibility Study be conducted to determine if additional parcels should be included in the Lynn Haven CRA. A proposed Study Area (Attachment A) has been defined by CRA staff for analysis. To determine if the parcels in the Study Area are eligible for inclusion in the Lynn Haven CRA, a Finding of Necessity shall be conducted on the parcels, and a recommendation shall be developed for the CRA Board.

In addition to the update of the Feasibility Study, the CRA is proposing to amend the Community Redevelopment Plan. The Community Redevelopment Plan was designed to address public concerns related to economic development, future land use, transportation, downtown development, housing, recreation, and community aesthetics. The consultant shall complete an update of all sections of the Redevelopment Plan to include the Study Area parcels, as well as to reflect changes within the CRA area since the plan's adoption in 2003. The consultant should update the site inventory, land use, and area analyses, and also conduct a gap analysis between the original concept plan and a completed projects list, which shall be developed as part of this project. This information as well as input from the community meeting and public survey shall be used to develop a new Concept Plan and Capital Projects and Programs list for the Community Redevelopment Plan.

During the update of the Community Redevelopment Plan, the CRA also intends to amend the time period of the CRA, pursuant to Florida Statutes 163.361, increasing the effective time of the CRA from 30 years to 40 years from the date that the plan was adopted (2003).

PART I: UPDATE FEASIBILITY STUDY

Task One: Finding of Necessity for Study Area parcels

The consultant shall conduct a Finding of Necessity on the parcels in the Lynn Haven CRA Update Study Area (Attachment A), and determine if there is a legislative finding of the conditions of slum or blight (according to FS 163.340), which is a requirement for inclusion in the Community Redevelopment Area.

Deliverables:

Map 1: Current Community Redevelopment Area and Proposed New Parcels

Report 1: Finding of Necessity Analysis on Study Area Parcels

Task Two: Present Results of Finding of Necessity to CRA Board

The consultant shall present the results of the Finding of Necessity to the CRA Board. This presentation will include an overview on the methodology used to determine if there was a legislative finding of the conditions slum or blight, as well as the presence of any conditions within the Study Area. The requested action from the CRA Board will be to provide direction to the consultant on whether to include the Study Area parcels in the update of the Community Redevelopment Plan, based on the Finding of Necessity.

Deliverables:

Presentation 1: Presentation to the CRA Board of the Results of the Finding of Necessity

Report 2: Updated Feasibility Study to Reflect Study Area Parcels

PART II: UPDATE COMMUNITY REDEVELOPMENT PLAN

Task Three: Review of Community Redevelopment Plan and Analysis of Completed Projects from Capital Projects and Programs List

Lynn Haven CRA staff will provide a list of projects completed to date. The consultant shall develop a map of these projects, and compare the completed projects to the concept plan proposed in the current Community Redevelopment Plan. The consultant should identify the gaps between the concept plan and completed project lists, which will be utilized during community meetings and visioning sessions, discussed in more detail in Task Four.

Deliverables:

Map 2: Completed Projects to Date

Technical Memo 1: Gap Analysis between Concept Plan and Completed Project List

Task Four: Public Involvement for Update of Community Redevelopment Plan and Visioning for Study Area Parcels and State Road 390 Corridor

Any future planning will necessarily impact the local community. It is essential to include their input as plans are being developed. Additionally, it is important to engage the community and update their vision for the Lynn Haven CRA area, considering the changes that have occurred since the plan was original adopted, and to account for planned changes in the CRA area. One planned change that will affect the CRA is the Florida Department of Transportation (FDOT) road widening project that is being developed for State Road 390. This will affect the commercial businesses currently fronting on this corridor, and a vision for the future of this corridor should be developed by the consultant.

In order to collect and incorporate community feedback into the Community Redevelopment Plan update, the following tasks shall be completed by the consultant:

- Creation of public survey, in conjunction with CRA staff, to gather feedback about priority projects and vision for Study Area parcels and State Road 390 corridor
- Promotion of public survey via news releases to a wide variety of area media, and on Lynn Haven CRA Facebook page
- Plan, conduct, and analyze results from three community meetings to gather input on priority projects, and vision for the Study Area parcels and State Road 390 corridor

Deliverables:

Technical Memo 2: Community Meeting Results Analysis, Vision for Study Area Parcels and SR 390 Corridor, and Public Survey Results Analysis

Task Five: Update the Community Redevelopment Plan

The consultant should complete an update of all sections of the Community Redevelopment Plan to include the Study Area parcels and to include changes within the CRA area since the plan's adoption in 2003. Update of the site inventory, land use, and area analyses should also be included in this task. The consultant may utilize the gap analysis between original concept plan and completed project list, updated inventory, land use, area analyses, and gap analysis, as well as input from the community meeting and public survey, to develop a new Concept Plan and Capital Projects and Programs list for the Community Redevelopment Plan.

Any comments from the CRA will be incorporated into the amended plan, as appropriate.

Deliverables:

Report 3: Draft Updated Community Redevelopment Plan

Task Six: CRA Board Initial Review of Updated Community Redevelopment Plan

Following the update of the Community Redevelopment Plan, the consultant shall present the updated plan draft to the CRA Board. The presentation will address how the analyses conducted during the update of the Community Redevelopment Plan, and the community outreach and visioning sessions, were utilized in the updated Concept Plan and Capital Project's list.

At the CRA's direction, consultant shall forward the updated Community Redevelopment Plan to local planning agencies for their 60-day review and comment period. Any comments received by the local planning agency following their review will be documented. At CRA staff's direction, the consultant shall incorporate comments in the final updated Community Redevelopment Plan.

Deliverables:

Presentation 2: Initial presentation to the CRA Board of the Update Community Redevelopment Plan.

Report 4: Final Updated Community Redevelopment Plan

Task Seven: Coordinate Notice, Review, and Action on Amended Community Redevelopment Plan

The consultant shall present the final updated Community Redevelopment Plan to the CRA Board at a public hearing, after appropriate public notice. The proposed amendment shall be sent in writing, by registered mail, to each taxing authority which levies ad valorem taxes within the geographic boundary of the redevelopment area, pursuant to Florida Statutes 163.346. A

proposed resolution shall also be provided for adopting the amended Community Redevelopment Plan, and extending the effective period of the CRA from 30 to 40 years from the date that the plan was adopted (2003). Following the CRA's adoption of the updated Community Redevelopment Plan, five color hard copies and five CDs of the report shall be submitted to the CRA.

Part I: GENERAL INSTRUCTIONS

1. PURPOSE

A. Intent of RFQ: It is the intent of the City of Maitland, Florida, and its CRA Board (Also referenced herein as “The Board”) to select a professional company, consultant teams and/or an individual contractor to develop a Downtown Vision and Master Plan inclusive of Maitland’s CRA District, Downtown Maitland Zoning District, Maitland Avenue Special District and Maitland’s Cultural Corridor Special District.

B. Time and Due Date: The City of Maitland’s CRA Board will accept Proposals that must include statements of qualifications from firms/individuals, corporations, partnerships, and other legal entities authorized to conduct business in the State of Florida by **December 11, 2015 no later than 4:00 pm.**

C. Background:

Visioning and Revitalization Efforts

Overview

Since the late 1990’s, the City of Maitland has undertaken several major visioning and revitalization efforts to better plan for and focus quality development and services citywide. Major efforts have included planning for the Downtown area through a Revitalization Plan, creation of a Community Redevelopment Area, developing a Cultural Corridor Master Plan for a special district and identifying a Transportation Concurrency Exception Area (TCEA) and Transit Oriented Development (TOD) Overlay District, as well as developing special programs for neighborhoods, parks and open space.

Downtown Maitland Revitalization/Master Plan

The Downtown Maitland Revitalization/Master Plan was created as a guide for the economic redevelopment of the commercial core of the City. The focus area of the Plan centers on the Orlando Avenue corridor, stretching North to South from Maitland Boulevard to the railroad bridge at the City’s southern boundary.) (See Figure 1: Community Redevelopment Area). The plan’s vision is to create a vibrant downtown area that is commercially oriented, friendly to pedestrians and complimentary to the “Cultural Corridor” along nearby Maitland Avenue. A Master Plan for the Cultural Corridor was adopted in 1994. This Downtown Vision was realized through the collaboration of the residents of Maitland and the City. During the planning process, four working groups were established to address specific areas of concern including: Infrastructure, Character, Streetscapes, and Regulatory & Economic Incentives. Each group was charged with addressing issues impacting the aesthetic appeal and economic viability of the downtown corridor.

Following the adoption of the Downtown Maitland Master Plan in 1997, the City realized that the anticipated wave of redevelopment was slow in coming. As a result, in May 2003, the plan was revised to include the creation of a Community Redevelopment Agency (CRA) as authorized by Section 163.34 of the Florida Statutes (See Figure 1: Community Redevelopment Area). The CRA is responsible for pursuing the goals and objectives outlined in the City’s Comprehensive Development Plan and Downtown Maitland Revitalization Plan. In addition to the creation of the CRA, the City contributed funds for preliminary engineering to help expedite the permitting process and reduce infrastructure costs.

Through these progressive actions, the City has demonstrated a firm commitment toward the revitalization of its core downtown area. Along with the master planning efforts associated with the Downtown Revitalization Plan, a full set of design guidelines and standards was developed for the corridor. These guidelines include individual master plan concepts for each of three corridor subareas. Standards include specific design requirements regarding density, intensity (Floor Area Ratio), parking location and stormwater management, among others. Visual examples of appropriate streetscape features and architectural detailing are also included in addition to a list of permitted, conditional, and prohibited uses.

56 The Revitalization Plan also contains a detailed discussion of infrastructure improvement needs throughout
57 downtown. Information relating to utilities, potable water, sanitary sewer, stormwater, and transportation
58 improvements are all explored in the plan accompanied by detailed maps, and a discussion of funding
59 mechanisms. In the 12 years since its adoption, much of this plan has come to fruition and some elements
60 have not and will not occur. The focus of this RFP is to clarify the Vision; update and revise the Downtown
61 Maitland Revitalization/Master Plan, and expand it to include Maitland Avenue (from Maitland Blvd to
62 Orlando Avenue) as well as the Cultural Corridor (*See Figure 2: Master Plan Area*).
63

41. EXCEPTIONS: Proposers taking exception to any part or section of the solicitation shall indicate such exceptions on the proposal form. Conditional or qualified proposals, unless specifically allowed, shall be subject to rejection in whole or in part.

42. FAILURE TO DELIVER: In the event of the contractor to fail to deliver services in accordance with the contract terms and conditions, the City, after due oral or written notice, may procure the services from other sources and hold the contractor responsible for any resulting purchase and administrative costs. This remedy shall be in addition to any other remedies that the City may have.

43. FAILURE TO ENFORCE: Failure by the City at any time to enforce the provisions of the contract shall not be construed as a waiver of any such provisions. The contractor understands and agrees that this is a requirements contract and that the City shall have no obligation to the contractor if no services are required. The amount is only an estimate and the contractor understands and agrees that the City is under no obligation to the contractor to buy any amount of services as a result of having provided this estimate or of having any typical or measurable requirement in the past. The contractor further understands and agrees that the City may require services in excess of the estimated annual contract amount and that the quantity actually used whether in excess of, or less than, the estimated annual contract amount and that the quantity actually used

shall not give rise to any claim for compensation other than the total of the unit prices in the contract for the quantity actually used.

51. TERMINATION FOR CONVENIENCE: The performance of work under the contract may be terminated by the City in whole or in part whenever the City determines that termination is in the City's best interest. Any such termination shall be effected by the delivery to the contractor of a written notice of termination of at least seven (7) days before the date of termination, specifying the extent to which performance of the work under the contract is terminated and the date upon which such termination becomes effective. The seven-day period will begin upon the mailing of notice by the City. If the contractor fails to cure the default within the seven (7) days specified in the notice and the contract is terminated for failure to perform satisfactorily, the contractor shall be entitled to receive compensation for all reasonable, allocable and allowable contract services satisfactorily performed by the contractor up to the date of termination that were accepted by the City prior to the termination. In the event the City terminates the contract because of the default of the contractor, the contractor shall be liable for all excess costs that the City is required to expend to complete the work under contract.

CITY OF NAPLES COMMUNITY REDEVELOPMENT PLAN AMENDMENT

PURPOSE

The City of Naples Community Redevelopment Agency (CRA) seeks the services of a qualified independent planning consultant, experienced with the laws governing community redevelopment in Florida, to conduct the analysis necessary to determine whether there is a justification for recommending that the City Council amend the community redevelopment plan (the Plan) that may include an extension beyond the current sunset date. It is anticipated the consultant will engage the community in a process to identify specific redevelopment goals, objectives, and capital projects to be included in the Plan amendment. It is also anticipated that the consultant will conduct an economic analysis over relevant times, and make professional recommendations, including, but not limited to, potential regulatory changes, and the possible justification for extending the CRA beyond the current sunset date of 2024. The consultant may also be requested to assist in drafting an amendment to the Community Redevelopment Plan.

PROJECT HISTORY AND BACKGROUND

The City of Naples is located in Collier County in southwest Florida and was incorporated on December 1, 1923. The City is approximately fourteen square miles in area, with a year round population of approximately 19,000, increasing to over 33,000 during the winter months. The Collier County population is 321,000 with an increase to 387,000 during the winter months. As a result, the daily service population is significantly greater than the permanent or seasonal population; however, no accurate measurement is available. Naples is a full service City (police, fire/rescue, water, sewer, solid waste, recycling, parks and recreation, streets and stormwater) operated under the Council-Manager form of government. The City employs approximately 450 people.

The City of Naples is considered one of the nation's premier communities offering residents and visitors a wide array of outstanding cultural and recreational activities. Nestled on the Gulf of Mexico with a sub-tropical climate, and many tree-lined streets, there are ample opportunities for shopping, dining, and recreation. The crime rate is low and quality health care services are available. The overall area population has increased 28% between 2000 and 2010. Housing and commercial services have expanded beyond the borders of the City into the adjacent unincorporated areas of Collier County, and while these unincorporated areas are also referred to as "Naples", many County residents may not understand that they do not reside within the City. City residents are well aware of the distinction.

Within the boundaries of the City is the community redevelopment area. The redevelopment area consists of approximately 550 acres of land, with about 43 acres currently vacant and not developed. Most of the vacant land is situated between US 41, a six-lane roadway on the west and south, and Goodlette-Frank Road, a six-lane roadway on the east. The issue of determining appropriate redevelopment in Naples has a long history, from the Report of the Redevelopment Task Force (1992), and the Report on the Determination of the Finding of Necessity for the Creation of a Community Redevelopment Agency (1993) to the adoption of the Community Redevelopment Plan (1994) and the establishment of the Naples CRA in 1994. The City Council serves as the CRA Board and receives advice from the Community Redevelopment Agency Advisory Board. The Plan has not previously been amended, although a 2008 Plan Update was completed. These reports and additional information are available at www.naplesgov.com/cra.

The redevelopment area includes several diverse sub-areas. The US 41 corridor includes Naples Community Hospital, associated medical services, and a variety of other commercial uses. The commercial area between US 41 and Goodlette-Frank Road is bisected by 10th Street and has a variety of commercial uses. Some along the 10th Street corridor have devised the name “Design District” to highlight some of the services offered. The River Park West area has a long history as a predominately African American neighborhood, is primarily residential, and includes subsidized public housing developments. The River Park East area is bordered by Goodlette-Frank Road on the west and the Gordon River on the east. The area is comprised primarily of single-family homes and includes a large river front park. The area south of River Park East and bordered by Goodlette-Frank Road on the west and the Gordon River on the east, is the site of many City offices, including Police, Community Services, Utilities, Development Services, etc., (north section), vacant land (central) and mixed use development (south). The Fifth Avenue South area has become a draw for residents and tourists with many opportunities for dining and shopping, as well as business offices, and residences. In 1994 the Master Plan and Retail Recommendations for Fifth Avenue South, created by the team of Andres Duany and Bob Gibbs, focused on this area and was incorporated into the Plan.

**THE FOLLOWING INFORMATION IS HEREBY INCORPORATED INTO,
AND MADE AN OFFICIAL PART OF THE ABOVE REFERENCED BID.**

• **PRE-BID MEETING QUESTIONS AND INFORMATION:**

1) What was the City's intent for doing this update?

Answer: The City's intent is to update the original Redevelopment Plan, which has not been updated since 1994. Many private development projects that had been approved prior to the downturn in the economy have not been constructed. The goals, objectives, and proposed redevelopment envisioned by the Plan may need revision based upon the economy, community input, and other changes. In addition, the CRA is due to sunset in 2024, concerns have been raised that redevelopment in the area has not been completed, and reductions in property values have resulted in lower tax increment revenues to fund redevelopment activities.

2) Will the Community Redevelopment Agency Advisory Board (CRAAB) be involved in this amendment process?

Answer: Yes. The CRAAB is an advisory board to the CRA board for matters concerning the redevelopment area. The members are residents and merchants in the area.

3) How often does the Community Redevelopment Agency (CRA) Board meet?

Answer: The CRA meets quarterly and on an "as needed" basis. The CRA is composed of the members of City Council.

4) How does the amendment relate to the older CRA Plan that is being amended?

Answer: Development of, and recommendations for, the amendment is part of this RFP; therefore, it is not known how the documents will relate. The original redevelopment plan included goals and objectives, as well as proposed redevelopment, improvements, and rehabilitation. It is anticipated that the participatory process envisioned in the RFP, in conjunction with the recommendations of selected qualified independent planning consultant, will result in recommendations to the CRA and City Council leading to a plan amendment that may modify the original goals and objectives, proposed redevelopment, improvements, and rehabilitation, and incorporate recommendations of the selected consultant.

IMPORTANT MESSAGE

5) What is the budget source for this effort... from TIF?

Answer: Yes, it is anticipated the effort will be funded from tax increment revenues. The amount has not been budgeted; however, a budget amendment will be processed through the CRA and City Council to appropriate the funds required to complete this project.

6) How important is the existing residential element and their input into this effort?

Answer: The input from residents in the redevelopment area is crucial. The input from all city residents, business owners, and even from stakeholders outside of the city will be important. The redevelopment area encompasses two major arterial roadways, US41 and Goodlette-Frank Road. It is the gateway to the Old Naples residential and commercial areas. Given the central city location of the area, future redevelopment in the area is important to the community and maintenance of the "character" of Naples.

7) Are Community Development Block Grant funds currently used in the CRA?

Answer: Yes. The annual funding allocation is used in a portion of the CRA district. This funding is passed down from Collier County pursuant to an interlocal agreement. The current funding level is just over \$100,000 annually.

8) What will be the involvement of the consultant after this amendment is completed?

Answer: The involvement of the consultant after performance of the required work is undefined. It is not envisioned as part of the agreement; however, future involvement is not ruled out. The Master Plan and Retail Recommendations drafted for Fifth Avenue South and completed by Andres Duany, Elizabeth Plater-Zyberk, and Robert Gibbs, was incorporated in the original Community Redevelopment Plan. The team was involved in the community after the Plan was adopted, but not pursuant to the initial agreement.

9) What is the thinking behind the amendment time schedule, and what is the estimated kick-off date?

Answer: We are anticipating and award of contract by City Council by late January 2013. The population of Naples swells during the winter season and the schedule in the RFP anticipates completion of the community engagement component prior to April 1, 2013 to allow for maximum stakeholder participation. The RFP anticipates the presentation of a plan amendment to the CRA prior to June 1, 2013. This is prior to the summer hiatus (mid-June to mid-August) of City Council and the CRA Board. Those making a submission may submit alternative schedules that we be considered in the evaluation process. The approach to the project and the schedule for completion are important components of the evaluation criteria. If an alternative schedule is presented, it is recommended that consultant's reasoning be included.

10) What is the composition of the evaluation committee?

Answer: The evaluation committee was approved by the City Manager and includes: Dave Lykins, Director of the Community Services Department; Gregg Strakaluse, Director of the Streets and Stormwater Department, Adam Benigni, Senior Planner in the Planning Department, Erica Goodwin, Planner II in the Planning Department, and Roger Reinke, Assistant City Manager.

IMPORTANT MESSAGE

11) Why are there two fees required, and how would you like them to be presented?

Answer: The CRA and Advisory Boards, including CRAAB and PAB - Planning Advisory Board, reviewed the scope of work for this project. The comments of some Board members included an observation that if an extension of the CRA sunset date was not feasible, a comprehensive plan amendment may not make sense because the anticipated tax increment revenue is substantially less than the cost of the projected capital projects. Additional information regarding revenue projections can be found in the 2012 CRA Sustainability Report referenced in the RFP and available at www.naplesgov.com/cra. This City may consider these costs in the evaluation of the proposals and/or in the terms of the contract with the selected firm.

12) For the Approach, what is the “time window” for the Vision?

Answer: One of the deliverables in the RFP is a report detailing recommendations for “an appropriately phased 10 year capital improvement plan, including a financing plan utilizing tax increment revenues...” Another deliverable requires recommendations for capital projects that facilitate development beyond 10 years. The Naples CRA, if not extended, sunsets in 2024, and if extended will encompass an additional 30 years from the date the extension is approved.

13) Is there a page limit for the Proposal?

Answer: No. It is recommended that submitters be cognizant that the Evaluation Committee will review all submittals. Clear and concise proposals recommended.

14) What are you looking for as part of the Market Study?

Answer: There have been many uses suggested for redevelopment in the area. Project plans developed prior to the economic downturn may no longer be economically feasible. It is anticipated the Market Study may provide information on the economic feasibility of alternative uses. The economic feasibility of one type of use when compared to another may drive consideration of redevelopment incentives and regulatory actions.

15) Do we need address the TIF budget or TIF cash flow in the proposal?

Answer: The RFP requires delivery of a report projecting available tax incremental revenues. This anticipates future projections and not current year budgets. Submitters may wish to consider information presented in the 2012 CRA Sustainability Report referenced in the RFP and available at www.naplesgov.com/cra. The premise of this report is that there will be insufficient funding available for all the capital projects previously recommended in the CRA.

- **WRITTEN VENDOR QUESTIONS:**

1) We were somewhat surprised to hear other interested firms were in attendance in person.

Answer: Please refer to the RFP title page; “In addition, a dial-in Telephone Conference call will be made available for those unable to attend. Please see instructions on page 20.”

NOTIFICATION DATE:	BID TITLE:	BID NUMBER:	BID OPENING DATE & TIME:
12/10/12	AMEND THE CITY OF NAPLES COMMUNITY REDEVELOPMENT PLAN	007-13	12/20/12 2:00PM

**THE FOLLOWING INFORMATION IS HEREBY INCORPORATED INTO,
AND MADE AN OFFICIAL PART OF THE ABOVE REFERENCED BID.**

On page 6 of the RFP, #41, it states "Proposers taking exception any part or section of the solicitation shall indicate such exceptions on the proposal form." This prompts 2 questions:

1. We were deemed non-responsive once this year for including our exceptions and we want to be clear that if we include them (attorney would like to add clause under litigation) our proposal will be accepted.
2. If we are to include our exceptions on the "proposal form" where is it? Do we just include them on a piece of paper and title it "Exceptions?"

Answer: Exceptions will be considered at the time of proposal review by the Evaluation Committee as part of the whole proposal and the evaluation criteria. Exceptions must be clearly listed in the bidder's proposal; there is no separate formal "proposal form."

The proposer will submit documentation concerned with the past performance and integrity of a contractor/developer. Accordingly, proposer should provide information as to any of the following: (a) bankruptcy, (b) mortgage foreclosures; (c) previous or pending litigation and (d) restrictions, restraints or impositions imposed by federal or state regulatory agencies such as Federal Housing Administration, Securities and Exchange Commission, etc., that apply to the contractor/developer.

9. POSTPONEMENT OF DATE FOR SUBMITTING PROPOSALS: The City reserves the right to extend the date for the receipt of proposals and will give ample notice of any such postponement to each prospective proposer.
10. CONTRACT AWARD: The City anticipates entering into a contract with the proposer who submits the proposal judged by the City to be most advantageous.

The proposer understands that this RFQ does not constitute an offer or a contract with the CITY. A contract shall not be deemed to exist and is not binding until proposals are reviewed and accepted by appointed staff, the best proposal has been identified, negotiations with the Proposer have been authorized by the appropriate level of authority within the City, an agreement has been approved, and executed by parties and by the appropriate level of authority within the City.

In the event the parties are unable to negotiate terms acceptable to the City, the City may determine to accept the offer of the second most responsive and responsible Proposer determined by the selection committee, or it may resolicit proposals. The City reserves the right to reject all proposals, to waive non-material, technical variances or infirmities in the proposal, to abandon the project or to solicit and re-advertise for other proposals. The City may in its discretion waive any informalities and irregularities contained in a proposal or in the manner of its submittal and award a contract thereafter.

11. RIGHT TO WAIVE AND REJECT: The City, in its absolute discretion, may reject any proposal of a proposer that has failed, in the opinion of the City, to complete or perform a City of Oakland Park contracted project in a timely fashion or has failed in any other way, in the opinion of the City, to perform a prior contract in a satisfactory manner, and has directed the City of Oakland Park Purchasing Manager to emphasize this condition to potential proposers.

There is no obligation on the part of the City to award the proposal to the lowest proposer, and the City reserves the right to award the proposal to proposer submitting a responsive proposal with a resulting negotiated agreement which is most advantageous and in the best interest of the City, and to reject any and all proposals or to waive any irregularity or technicality in proposals received. The City of Oakland Park shall be the sole judge of the proposal and the resulting negotiated agreement that is in its best interest and its decision shall be final.

The City of Oakland Park reserves the right to waive any informalities or reject any and all proposals, in whole or part, to utilize any applicable state contracts in lieu of or in addition to this proposal and to accept the proposal that in its judgment will best serve the interest of the City.

The City specifically reserves the right to reject any conditional proposal and will normally reject those which made it impossible to determine the true amount of the proposal. Each item must be proposed separately and no attempt is to be made to tie any item or items to any other item or items.

12. DISQUALIFICATION OF PROPOSERS: Any of the following reasons may be considered as sufficient for the disqualification of a proposer and the rejection of his proposal or proposals:

A. More than one proposal for the same work from an individual, firm or corporation under the same or different name.

B. Evidence that the proposer has a financial interest in the firm of another proposer for the same work.

C. Evidence of collusion among proposers. Participants in such collusion will receive no recognition as proposers for any future work of the City until such participant shall have been reinstated as a qualified proposer.

D. Uncompleted work which in the judgment of the City might hinder or prevent the prompt completion of additional work if awarded.

E. Failure to pay or satisfactorily settle all bills due for labor and material on former contracts in force at the time of advertisement of proposals.

F. Default under previous contract.

Contractor shall not engage in or commit any discriminatory practice in violation of the Broward County Human Rights Act (Broward County Code, Chapter 162) in performing any services pursuant to this Agreement.

PURPOSE, LOCATION, OVERVIEW, SUBMITTAL FORMAT, EVALUATION

1. **Purpose** The City of Oakland Park is soliciting “Statement of Qualifications” for a general review of its Community Redevelopment Area (CRA) Plan and Interim Redevelopment Plan, focused on the Community Redevelopment Area (CRA) and Downtown Mixed Use District (DMUD), from a consulting individual, firm, organization or team with downtown planning, downtown revitalization, redevelopment, design, marketing, real estate, economic, and implementation experience. The purpose of this Request for Qualifications (RFQ) is to select one or more consultants, organizations or firms with expertise in downtown revitalization, redevelopment, marketing, real estate development, and successful implementation to work with the City to (1) complete this general review, (2) provide a five-year strategic action orientated plan, and (3) to provide continued support or assistance services as requested.

2. **Project Location** The City of Oakland Park is located in east central Broward County. The City of Fort Lauderdale lies to the east of Oakland Park with Wilton Manors directly south and Lauderdale Lakes to the west. Interstate 95 splits the eastern and western halves of Oakland Park. It is a five-minute drive from the eastern boundary of the City to the beach and twelve miles to the Fort Lauderdale-Hollywood International Airport and Port Everglades. Oakland Park is also just over thirty miles from the City of Miami, Miami International Airport and the Port of Miami. Considering the City’s proximity to these major economic centers, the City of Oakland Park is an ideal location for redevelopment and future economic success.

The Community Redevelopment Area is made up of 1,007 acres of urban development, which represents slightly more than 19% of the City’s land area.

The linchpin of the Community Redevelopment Plan is the Downtown Mixed Use District (DMUD). The DMUD is located along Dixie Highway, north of Oakland Park Boulevard. This area of approximately 150 acres was designated a Local Activity Center (LAC) in 2004, a land use category designation that promotes compact, mixed use development. Specific land development regulations and design guidelines were adopted by the City in 2004 for the DMUD. Capital Improvement Projects described in the CRA Plan are to enhance and distinguish Downtown Oakland Park as a local pedestrian friendly destination. Currently, the City has \$13 million in Redevelopment Capital Program (RCP) funds for specific capital projects, as an alternative to Tax Increment Financing (TIF).

The CRA Plan, Interim Redevelopment Plan, Marketing Plan, Local Activity Center Parking Analysis, and other relevant information should be reviewed on line at the city’s website:

<http://www.oaklandparkfl.org/news/cra/index.cfm>.

3. **Project Overview** The CRA Plan is intended to guide redevelopment and revitalization of the area and provide solid recommendations for making physical improvements to downtown that would encourage redevelopment and enhance its functionality as a vibrant destination. Consultants will be asked to explore, determine viability, and provide a professional recommendation for redevelopment strategies intended to identify development opportunities and facilitate sustained ongoing revitalization, including special districts, public-private partnerships, and other available tools.

The City anticipates that some group and individual meetings will need to be facilitated by the consultants, particularly with key stakeholders, such as the City Commission, individual businesses and property owners, residents, and other interested groups and individuals, to build

consensus and formulate key strategic recommendations cumulating in a short term implementation plan.

4. **Anticipated Project Deliverable** The end result of this planning process will be a report outlining a five-year action orientated strategic plan. This document will include detailed recommendations and executable strategies for specific development and redevelopment programs or projects with action steps and opportunities that will market City/CRA owned properties and public/private parcels resulting in sustained ongoing revitalization of the CRA and downtown area.

5. **Format of Submittals** For the proposal to be considered, one (1) electronic copy, one (1) original marked “ORIGINAL”, and three (3) copies of the proposal must be received in the City of Oakland Park, City Clerk’s Office, on or before 2:30 P.M. May 23, 2011. Proposers shall include the following information in their proposal document and should use the following format when compiling their responses. Sections should be tabbed and labeled; pages should be sequentially numbered at the bottom of the page.
 - A. Briefly describe your company, and provide resumes of consultant(s), and key staff members who will be directly involved in this planning process;
 - B. Include an organizational chart containing the names of all key personnel, joint ventures partners, and sub-consultants with titles and their specific task assignments for this project,
 - C. Provide a listing of similar projects previously completed;
 - D. Provide at least three references, with current contact information, from similar projects
 - E. Other information relevant to the services offered and expertise provided by the respondent.
 - F. Submittal Forms (as listed in section III).

6. **Evaluation Committee and Selection Criteria** A committee of City staff will evaluate the submitted materials. The staff may consider but shall not be limited to the following review criteria:
 - Prime firm needs to demonstrate success in assisting municipalities and/or CRAs in attracting and successfully implementing revitalization, redevelopment, and development downtown programs.
 - Experience and past performance of the firm or team and/or personnel with the type of work identified.
 - Familiarity of the firm and team and/or personnel with downtown planning, urban planning principles, downtown development, and implementation strategies.
 - Availability of knowledgeable personnel within the firm or on a consultant team.
 - Capability of the firm or consultant team to complete the project in a timely manner.

The City staff may take any of the following actions after reviewing the submitted materials:

- Contact respondents and request additional materials or supporting information.
- Contact respondents for an in-person interview.
- Prepare a Request for Qualifications to be sent to one or more of the respondents.
- Enter into direct negotiation with a respondent.
- Re-advertise and/or reissue the original RFQ or an amended RFQ.
- Determine that responses received are inadequate and/or that the services sought are no longer necessary or desired.

7. **Rights of the City** This RFQ does not commit the City to enter into a contract, nor does it obligate the City to pay for any costs incurred in the preparation and submission of proposals or in anticipation of a contract. The City reserves the right to:

- Make selections or solicit additional responses based on its sole discretion;
- Reject any and all proposals and enter into direct negotiations with any, all or some of the providers whether or not they provided a submittal to this RFQ;
- Issue subsequent Requests for Qualifications or Requests for Proposals;
- Remedy technical errors in the Request for Qualifications process;
- Approve or disapprove the use of particular sub-consultants;
- Enter into an agreement with any provider or negotiate with more than one provider for the provision of any, all or some of the services.

BACKGROUND

Pensacola is a nearly 450-year-old city with a rich history and exciting future. Also known as the City of Five Flags, Pensacola is the largest city in Northwest Florida. Having been governed by five nations since its discovery in 1559 (Spain, France, England, the Confederate States of America, and the United States of America), Pensacola offers a diverse economic and cultural palette, with business and industry such as the medical and chemical fields, military and governmental operations, and tourism and retail shopping blending into a rich cultural and artistic heritage.

Pensacola's downtown is in the heart of a region of over 350,000 people with diverse backgrounds and interests. It's a downtown where residents, office workers and visitors stroll comfortably along historic streets, shop in clothing stores, browse for art or sample restaurants where menus range from Gulf coast seafood to French cuisine. The many museums tell the story of Pensacola's past as the surrounding businesses, theaters and the seats of both city and county government create Pensacola's future.

In 1980, the City Council of the City of Pensacola recognized that the City's downtown and inner city was an all too common victim of the shifts in the 60's and 70's to suburban living and designated approximately 1,300 acres (256 blocks) of the Pensacola Inner City area as a community redevelopment area under Florida Statute 163 for the focus of rehabilitation, conservation and redevelopment activities.

Downtown Pensacola's redevelopment efforts are guided by the Community Redevelopment Agency of the City of Pensacola (CRA), that is comprised of the 10 City Council members. Since being created, the CRA has funded public infrastructure through the reinvestment of taxes generated within the district. Public investment by the CRA and other public entities of \$66 million in improvements has generated \$191 million in private investment in the agency's urban core; which extends south from Cervantes Street to the waterfront and bounded by "A" Street on the west and 17th Avenue on the east. (Exhibit "A" - map)

The last comprehensive update of the Urban Core Redevelopment Plan was undertaken in 1989 and incorporated long-range projects and objectives to revitalize the CRA. The projects and elements of the plan have been consistently implemented. In addition, a number of small area or task specific plans, studies and reports have been developed within the CRA including:

- [Community Redevelopment Plan, 1989, as amended](#)
- [Pensacola Waterfront Development Plan, 2000](#)
- [Belmont DeVilliers Land Use Plan, 2004](#)
- [Pensacola Historic District Master Plan, 2004](#)
- [Downtown and CRA Residential Market Potential, 2004](#)
- [Downtown Improvement Board, Parking Management Strategy, 2006](#)
- [Downtown Improvement Board, Retail Market Strategy, 2007](#)

NEXT STEP

The Urban Core CRA Plan Update

Culturally, the nation is changing its attitudes towards cities and urban living. Broad economic, social and cultural forces are reshaping the face of our urban environment. These forces give areas such as downtown Pensacola the best opportunity to compete in decades. Our challenge is

to develop a plan that realizes our urban core's full potential. The intent of the Urban Core CRA Plan Update is to provide a document that establishes the framework for transformative policies and investments in the CRA area. Within that context the plan will provide policy, programmatic and fiscal direction for the CRA as we reshape our urban landscape.

Strategic Framework

In our strategic framework talent; connections; distinctiveness; innovation; are identified as key elements which provide the basis for our next steps. The idea behind this framework is

- Talent; we want to attract young talented adults. This growing and diverse population (X-Y generation, young professionals, new immigrants, young families with children,) wants choices in life style and be connected to strong close in neighborhoods.
- Distinctiveness, we must be aspirational and offer professional opportunities to attract young people to want to live, work and raise a family in our area. Our urban amenities, historic neighborhoods, downtown living, cultural attractions gives us a competitive niche...to attract workers, residents and tourists.
- Innovate; innovation is the driver of the economy. Therefore we need to promote investment in technology infrastructure.

Conceptual Themes

Within the strategic framework the CRA has embraced two conceptual themes The Urban Core and The Waterfront. The update should build upon these themes;

- Urban Core: the update would guide the strengthening of our unique urban environment as a regional landmark and an important destination.
- Waterfront Development; the update would guide us in creating an attractive amenity that adds to the identity and livability of the City.

Several features of these themes are embedded in various studies undertaken in the past eight years and are evident in projects that have been completed within that time period.

Updated Goals for the Urban Core and Waterfront

Urban Core Goals:

- Build upon recent success and community strengths
- Create strong destinations for development / investments
- Connect new investments with existing community fabric
- Link destinations to neighborhoods and waterfront to establish a multi-dimensional downtown.

Waterfront Goals:

- Increase the awareness of the waterfront within the city / region
- Enhance and promote the waterfront for the economic benefit of the community
- Promote the diversity of the waterfront by creating opportunities for parks, cultural recreational, educational, and entertainment experiences
- Connect the waterfront to the city linking neighborhoods and downtown
- Preserve and enhance the natural areas along the water's edge

Plan Strategic Guiding Principles

Having laid out what the CRA feels is its strategic framework within which we work; the themes that have been developed and some of the goals to be attained; the following principles should guide the development of the updated plan. It is believed that successful cities should be:

- Prosperous - attracting jobs and investment
- Diverse - social and economically inclusive
- Distinctive - our historic and cultural destinations
- Walkable - focus on the pedestrian environment

The Consultant's obligation shall not be limited by, or in any way to, any insurance coverage or by any provision in or exclusion or omission from any policy of insurance.

PAY ON BEHALF OF THE CITY

The Consultant agrees to pay on behalf of the CRA, as well as provide a legal defense for the City, both of which will be done only if and when requested by the CRA, for all claims as described in the Hold Harmless paragraph. Such payment on the behalf of the CRA shall be in addition to any and all other legal remedies available to the CRA and shall not be considered to be the CRA's exclusive remedy.

**Master Plan Update for the Urban Core Redevelopment Area
of the City of Pensacola, Florida
RFQ 08-044**

**Consolidated Summary of Inquiries and Responses
August 26, 2008**

- The RFQ indicates that you want a plan "update." Is this to be a stand-alone document or merely a supplement to the existing document? *We are looking for a new stand alone document that incorporates/acknowledges elements of the original plan, the numerous plan updates as well as plans and studies conducted but not formally incorporated into the current CRA Plan.*
- Does the City view this project as a major planning initiative with a budget to support that level of effort, or is this an update, more of a fine tuning of the previous plan? *The CRA views this project as a major planning initiative with a budget to support that level of effort, however as the RFQ states, the plan should also coordinate "the goals of previously adopted plans by incorporating them into a larger vision."*
- What is the budget for this project? *The 2008 budget is sufficient to develop a plan of this scope/magnitude and will be further negotiated with the successful respondent as the scope is further refined. Additional work may be phased as we begin implementation of the resulting plan.*
- Are you looking for a cost proposal? *This is an RFQ rather than RFP and we will not be making a selection based upon cost proposals.*
- Who did the original plan / what did the CRA not like *The original plan was developed by CRA and City Planning Staff in 1984 and substantially updated in 1989. Although many of the objectives in the plan are still valid and sound, the actual projects contained in the plan are complete or obsolete.*
- Is it your anticipation that this project will have a similar process used for previous planning projects, such as the Historic District Master Plan and the Waterfront Master Plan? *We are looking for responders to provide their approach/process to address the planning areas, but I will say the result would probably be more like the Waterfront Master plan - though much more detailed in some areas to meet statutory compliance. At this point we were not looking to establish an additional committee for the process as they did in the WMP.*
- To what extent would the city staff be involved in the project? Will there be a task force or committee? *The level of involvement of various City and CRA staff would ultimately be part of the final scope of work negotiated with the successful firm/team, but the two principle staff members working directly and closely with the firm/team will be the Community Development Director (AIA) and CRA Administrator (AICP). In addition, our Community Development and CRA Staff includes an AIA and 3 AICPs with extensive knowledge of the area. At this time we have not determined a final approach that would include a committee*

or task force. However, the ultimate process/approach would be part of finalizing the scope of work.

- *Would text changes for the Update be required to go before the Escambia County BOCC? Changes are not required to go before the BOCC. However there are notification requirements to all taxing authorities for all plan amendments.*
- *Would recommended enlargement of the district require Escambia County BOCC approval? Enlargement of the district is not under consideration.*
- *CRA requirements vary by County depending on whether a charter county is involved or not, plus some other nuances. Any light you can shed on this for me would be appreciated. Escambia is not a chartered county, however since the Pensacola Urban Core CRA was established prior to the recent statute changes, we are exempt from those provisions.*
- *On the CRA website, the DIB Parking Management Strategy is listed, but the link sends you to the Retail Market Strategy. Could you please provide a link to the Parking Management Strategy? The website has been corrected and the correct link is <http://www.downtownpensacola.com/DIB/committees/pt.asp>*
- *Will the master plan of the waterfront and downtown areas deal with the revitalization and housing strategies for low income or minority neighborhoods? This update incorporates the entire CRA which includes low income and minority neighborhoods. In addition, the plan must at minimum meet the statutory requirements for CRA Plans in regards to residential uses.*
- *In addition to the Conceptual Themes, Urban Core and Waterfront Goals and the Guiding Principles listed in the RFQ are there any other key issues or questions the City would like to have addressed or answered in this master plan update? Key issues were included in the RFQ*
- *Do sub-consultants need to be exclusive to the team for this submittal? No. Sub-consultants may partner with other teams.*
- *It is stated on page 8 of 18 that the “CRA intends to enter into an Agreement with a **single firm** that provides all the necessary disciplines required for the successful implementation of the proposed project.” Does this mean that a prime architect or planning firm with consultants will not be qualified nor considered for the project? No. Actually it means that we will only 'contract' with a single firm and not each individual firm (sub) on an assembled team.*
- *Do you have a preference regarding which discipline should lead the team’s efforts (e.g. arch./engineering, economic consulting, etc.) No preference at this time as long as the necessary disciplines are covered and the lead can demonstrate the ability to coordinate the team and communication.*

- On the forms at the back of the RFQ – do you need those signed by each member of a team (each subconsultant), or just the prime? *Just the prime.*
- Should all sub-consultants be identified in the response? For example, for a national firm, or a team of national firms, identifying the right local engineers or other local consultants might occur during the interview and/or negotiation periods of the process. I recognize that to get credits for small and minority owned businesses, they would need to be identified in the response. May a firm propose to round out the team once the specific scope has been negotiated or prior to the interview? *The Evaluation criteria includes "the qualifications and availability of the personnel to be assigned to the project." Undetermined personnel would likely be reflected poorly in the rating given for this area. The key to evaluating qualifications of any firm/team is knowing who actually comprises the team.*
- Do you anticipate the selected consultant team needing to have GIS capability? What about transportation planning / traffic engineering expertise? *The introduction to the RFQ does list GIS as a necessary component. The scope of services (although broad) also includes transportation and parking planning.*
- Has a past consultant been asked to pursue this opportunity as well? *Yes.*
- Who has done this type of work recently in your area? *HHI - Belmont-DeVilliers Neighborhood Land Use Plan, Urban Design Associates - Pensacola Historic District Master Plan, IBI Group (formerly KPMG) - Westside CRA Plan.*
- Are there any specific types of info. you are seeking? This is considered an RFQ, but the "approach to project" is one of the graded criterion, so I'm assuming this is really more of an RFP. *The approach to the project criterion is to gage the connection of the consultants' understanding of the project and their approach(s) that in turn lines up with outcome.*
- Is there a specific outline of the required information to be submitted? Is the Written Response Evaluation Criteria intended to be the outline for this? *The written response criteria is a general outline for addressing the areas listed in the scope.*
- The Affidavit on Public Entity Crimes appears as if it has to be notarized by a Florida Notary Public. *A notary of any state is acceptable for the Affidavit.*
- The CRA RFQ notes MBE/SBE on the scoresheet. Does the City or CRA have an approved or registered list of vendors to include, or is it OK to include MBE/SBE folks that may be listed with other local governments in FL?. *If the firm is an MBE (a state of Florida designation), then they should state that. The SBE designation is the City's and the firm must be from the within the 325 zip code (Pensacola area), so they could not be an SBE since they are from Orlando. SBE Vendor list attached.*
- In regards to the page count for responses to the RFQ, does the 20-page limit include the Table of Contents and Tabs/ Dividers, and also does the 20-page limit count towards double-sided printing (i.e. 10 sheets if double-sided)? *The page count would not include the TOC or*

tabs/dividers as long as they are for organization of information only and do not contain any additional or substantive information. The 20 page limit refers to the number of 'page faces', therefore yes, 10 sheets if double sided.

- Proof of Insurance, 52.209-5 FAR Certification, 52.209-6 FAR form, Public Entities Crimes form, and Certification/Authorization/Acknowledgement Form, SBE certification—insurance certifications, any SBE proof of certification, and forms are in addition to and do not count against the 20-page Statement of Qualifications response. *Yes*
- Regarding Format of the responses, the RFQ states that “The requirements stated do not preclude Offerers herein from furnishing additional information as deemed appropriate”. However, it also states that Responses shall be limited to 20 pages (with specified exclusions). Please clarify what shall be included in the 20 pages and what might be considered additional information. For example, do project example marketing sheets count toward the 20 pages? Resumes? *Although unlikely, if the respondent can address the areas requested in less than 20 pages, they can provide additional information up to the 20 pages. Marketing sheets and resumes would count toward the page totals.*
- Why the short turnaround time on the RFP - *the RFQ will actually be out for approximately 45 days, in excess of the usual 30 days. the delivery of the plan is approximately 9 months.*
- What factors, if any are driving the City's March 2009 project deadline? *Preliminary budgets for the 2010 FY are being prepared by this time. Although ambitious, it is goal that will be negotiated with the successful team based on the final scope of work. As stated in the RFQ, "the broad scope of the study may allow or require a phased, extended timeframe, subject to funding availability."*
- When do you plan to short list and interview? *Anticipate determination/notification of short list by mid to late September, depending on the volume of respondents.*
- Who will be on the selection committee? *Currently plan to have a 5-6 member committee comprised of CRA / City staff, elected official (1), Downtown Improvement Board, and area resident/business owners.*
- Is the City Council the CRA board – or is there a separate CRA board? *Though the CRA is a separate entity, the governing body of the CRA is made up of the same 10 elected members as City Council.*
- I have heard that the City Manager (Tom Bonfield) has moved on. True? Is there a new City Manager identified yet? *Yes. Alvin G. Coby, one of our Assistant City Managers, is now the Interim City Manager*
- Is there a list of consultants who have been contacted or have expressed an interest in this project? List below.

Firms/Organizations who were sent notification of the RFQ and/or have expressed an interest

BACKGROUND

The Sebring City Council created a Community Redevelopment Agency in 1981. A redevelopment plan was prepared to guide the direction of the revitalization effort and was adopted in 1983, with one amendment adopted in 1994. The community has experienced numerous changes since the creation of the original plan. As a result of these changes, it is the desire of the Community Redevelopment Agency Board to up-date the plan. This project will result in the creation of a revised and up-dated redevelopment plan.
