8.II. Purchase Authorization - Library Lockers

[Begin Agenda memo]

SYNOPSIS:

Staff is seeking approval to utilize Library Impact Fees to purchase a library locker system for 24 hour a day, 7 days a week patron access to holds and document retrieval safely.

RECOMMENDATION

It is recommended that the City Commission take the following action(s):

1. Authorize staff to expend funds in the amount of \$25,950 for the purchase and installation of a 20-locker Intelligent Library Locker System from International Library Services, Inc.
2. Authorize a budget amendment in the amount of \$25,950.

BACKGROUND

The Lake Wales Public Library's usage has grown significantly reflecting new families and housing in our city. Library staff has researched ways to safely provide services during hours of operation, and to patrons after hours. Providing access to library materials for pick up 24/7 will allow patrons who have difficulty using the library's collection due to work schedules, transportation difficulties and health concerns. The Intelligent Library Locker System connects to the Polk County Library Cooperative's Integrated Library System and allows library users to retrieve books, movies and audio books they've placed on hold via the library lockers.

The Intelligent Library Locker system will be located out of doors at the library's main entrance.

Staff solicited three proposals in accordance with the City's purchasing ordinance and recommends approval of the proposal submitted by International Library Services, Inc.

Quotes from the three vendors are attached to this memorandum. Library staff recommends the quote submitted by International Library Services' Intelligent Locker System in the amount of \$25,950. This company provides seamless integration with our computer system and can be installed out of doors.

Southwest Solutions Group's quote of \$12,750 is for fewer lockers, (a 12-locker system). Connectivity of our library software system is not available with this product.

Biblioteca submitted the highest quote at \$35,069.00. Biblioteca's system can be connected to the library's software system, however this system has to be installed indoors only. The library has no indoor space that is open after hours.

This purchase as not included in the approved FY20 budget and staff is requesting a budget amendment in the amount of \$25,950.

OTHER OPTIONS

The City Commission may elect to not approve this purchase

FISCAL IMPACT

The fiscal impact is \$25,950, however this acquisition qualifies for funding through Library Impact Fees.

The current balance available in the library impact fee account is \$318,905.

8.IV. Wastewater Manhole Rehabilitation

[Begin Agenda Memo]

SYNOPSIS:

Staff recommends City Commission approve entering into a piggyback agreement with Engineered Sprayed Solutions, LLC for manhole and structure rehabilitation using the polyurethane coating method.

STAFF RECOMMENDATION

It is recommended that the City Commission consider taking the following action:

1. Approve entering into the piggyback agreement with Engineered Sprayed Solutions, LLC.

BACKGROUND

The City, as part of its collection system, owns, operates, and maintains 121 Miles of 8 to 16 inch Gravity Sewer Line and 75 Miles of 2 to 16 inch Force Mains. The collection system is connected by a series of manholes which aid in the transportation of the collected waste to the wastewater treatment plant for processing. Due to the corrosive nature of raw sewage gases, it becomes necessary to perform periodic maintenance on these manholes to ensure they continue to function as intended.

Staff contacted Sarasota County and Engineered Sprayed Solutions, LLC seeking permission to piggyback on a contract that had already been competitively bid in June of 2020. This allows for the City to take advantage of the lower pricing without expending funds to bid out this same service itself.

Staff recommends the commission take the following action, enter into a piggyback agreement with Engineered Sprayed Solutions, LLC for manhole and structures rehabilitation.

OTHER OPTIONS

None. Maintenance of these wastewater system components becomes necessary from time to time to maintain the integrity of the system

FISCAL IMPACT

The Wastewater Department has placed \$50,000.00 for manhole rehabilitation in the FY 19'-20'.

The City Commission will consider adopting Ordinance 2020-07 to allow for the purchase of prior municipal service by the City Manager.

RECOMMENDATION

It is recommended that the City Commission adopt Ordinance 2020-07 on Second Reading & Public Hearing.

BACKGROUND

The City sponsors multiple retirement systems, including a Defined Benefit Plan and a Defined Contribution plan. Ordinance 2020-07 is being presented to allow for purchase of prior City service by the City Manager.

The proposed change will allow a city manager who has full-time City of Lake Wales service or other full-time governmental service in Florida prior to membership in this Plan, to purchase up to five years of prior service. The full actuarial cost of this buyback must be paid by the member. The cost of the service buyback will be made by lump sum payment, including rollover from another qualified plan.

The City's defined benefit plans currently allow members to purchase up to five (5) years of military service entirely at the employee's cost and the Florida Retirement System which covers school district and County employees, including the Sheriff's Office, allows members to purchase some type of prior government service as is provided for in this ordinance.

FISCAL IMPACT

Foster & Foster, Inc. the General Employees' Pension Board's Actuarial Consultants, have determined that the purchase of prior City service by the City Manager will have no impact on the assumptions used in determining the funding requirements of the plan, because the cost will be paid by the City Manager.
